EVIRALAB

Healthy Skin. Radiant Glow

Advanced Skin Brightening
& Biotech Solutions

DISTRIBUTED & DEVELOPED BY BEAUFIRST GLOBAL

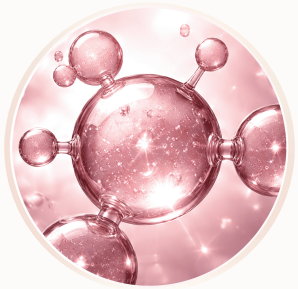
BRAND INTRODUCTION

EVIRALAB

EVIRALAB is a skincare brand powered by Korean biotechnology, developing advanced solutions designed to support healthy, even-toned, and radiant skin.

Developed and globally expanded by BEAUFIRST GLOBAL, EVIRALAB is steadily building a network of strategic distribution partners to bring high-quality skincare solutions to markets worldwide.

CORE TECHNOLOGIES



01 NAD+

REGENERATION TECHNOLOGY

Supports cellular energy production to help revitalize the skin, promoting a healthier, fresher, and more vibrant complexion.

02 BIOMIMETIC

PEPTIDE TECHNOLOGY

Biomimetic peptides help improve skin firmness, enhance skin tone uniformity, and maintain the skin's natural radiance for a healthier-looking appearance.

WHY EVIRALAB?

01.

KOREAN BIOTECH FORMULATIONS

Advanced formulations powered by NAD+ and Biomimetic Peptide Technology.

02.

COMPLETE PRODUCT PORTFOLIO

A comprehensive and well-structured product portfolio designed to address diverse skincare needs and customer segments.

03.

MARKET-READY BRAND SYSTEM

A standardized brand identity, sales materials, and marketing system developed to support efficient market expansion.

04.

STRATEGIC GROWTH PARTNERSHIP

Long-term partnership through exclusive distribution models and sustainable market development strategies.

GROWING GLOBAL DEMAND

Aligned with the rising global demand for Healthy Skin & Radiant Glow.
